OUR EXPERTS SPECIALIZE IN ECONOMICS, A DIVERSE DISCIPLINE

OUR EXPERTS HOLD POSITIONS AT PRESTIGIOUS INSTITUTIONS

OUR EXPERTS PUBLISH ACROSS HIGHLY-REGARDED PLATFORMS

ONE-STOP CONCIERGE SERVICES FOR ALL YOUR EXPERT NEEDS

EXPERT SOURCING

Our search team, consisting of both PhD economists and attorneys, will consult with you to determine the ideal expert profiles for your cases. Because our search team knows the ins and outs of the report process, the transition from the sourcing stage to the expert analysis stage will be seamless.

EXPERT ANALYSIS SUPPORT

Our team provides comprehensive support to the experts in their analyses and reports. We are the only firm that delivers the highest-quality reports while providing personal attention to our clients' needs.

DEPOSITION AND TRIAL SUPPORT

We work with experts prior to deposition and trial to strategize themes and identify "safe harbors" for their testimony. We also ensure experts are prepared with the report content so counsel can focus on strategic discussions in their sessions with the experts.

WORLD-CLASS SUPPORT TEAM

After the best experts are placed, Vega provides continuous support to assist the experts in preparing their reports and testimony.

Our support team is led by PhD economists with former academic positions, who have extensive experience managing complex engagements to meet your mission and time-sensitive needs.

We are highly praised and trusted by our clients for our on-demand and reliable support.

“I have worked with several expert and consulting teams in the past and this has, by far, been one of the best experiences I've had in terms of appendix, exhibit, reliance material and report preparation with several days still left to go.

- Attorney at Am Law 100 Law Firm

FEATURED 2020 ENGAGEMENTS

RMBS SERVICING

The Vega team supported several industry and academic experts in a case involving RMBS servicing and master servicing:

- **Servicing expert:** We performed a file review of millions of pages of servicing records to address claims related to foreclosure and loss mitigation. Our file review was streamlined by using custom-built machine learning code and supplemented with specialized reviewers.
- **Industry expert:** We supported an industry expert who opined on market participants' expectations and interpretation of servicer and master servicer's contractual obligations.
- **Economic expert:** We reviewed and rebutted the data selection and model assumptions used by opposing damages experts. We also recalculated the damages using the servicing experts' inputs.

LIBOR TRANSITION

The London Interbank Offered Rate (LIBOR), one of the most important rates in the financial markets, is set to be phased out by mid-2023. We are currently engaged by one of the world's largest banks to provide consulting and research support in connection with the LIBOR transition.

SPOOFING ANALYSIS

Vega analyzed allegations of certain traders' spoofing conduct and evaluated calculations of alleged market harm associated with these spoofing activities.
